

# **Accessibility Plan**

**Updated September 2022**

## **1. Aims**

The aims of this Accessibility Plan are to ensure that Ponteland Primary School continues to work towards improving the accessibility of provision for all students, staff and visitors to the school.

The Accessibility Plan contains relevant actions to:

- Increase the extent to which disabled students can participate in the curriculum
- Improve the physical environment of the school to enable disabled students to take better advantage of education, benefits, facilities and services provided
- Improve the availability of accessible information to disabled students

Our school aims to treat all its students fairly and with dignity, courtesy and respect. This involves providing access and opportunities for all students without discrimination of any kind.

Ponteland Primary School is committed to a fair and equal treatment of all individuals; able bodied or disabled. We are committed to improving access to the physical environment, to the curriculum and to the provision of information in order to ensure access for all. Our school is also committed to ensuring staff are trained in equality issues with reference to the Equality Act 2010, including understanding disability issues.

The school supports any available partnerships to develop and implement the plan. We work closely with the sensory support service to ensure that we are informed of any difficulties that students with VI or HI have in accessing the school site or curriculum.

Our school's complaints procedure sets out the process for raising any concerns relating to accessibility in school.

We have considered the views of a range of stakeholders in the development of this accessibility plan, including students, parents/carers, staff and governors of the school.

## 2. Legislation and guidance

The Equality Act 2010 provides a single, consolidated source of discrimination law. It simplifies the law and it extends protection from discrimination in some areas that were not previously covered. Schools cannot unlawfully discriminate against pupils because of their sex, race, disability, religion or belief, gender reassignment or sexual orientation.

The Equality Act 2010 requires schools to make 'reasonable adjustments' so that all children can access their facilities and services. The term 'reasonable' is not explicitly defined in the Act, which leaves it up to the discretion of the school to determine this. Some (but not all) of the factors that may influence a decision are:

- Financial resources of the school
- Cost of the aid or service
- Effectiveness of the aid
- Effect on other pupils
- Health and safety requirements
- Provisions already made by the SEN Framework

This document meets the requirements of [schedule 10 of the Equality Act 2010](#) and the Department for Education (DfE) [guidance for schools on the Equality Act 2010](#).

The Equality Act 2010 defines an individual as disabled if he or she has a physical or mental impairment that has a 'substantial' and 'long-term' adverse effect on his or her ability to undertake normal day to day activities.

Under the [Special Educational Needs and Disability \(SEND\) Code of Practice](#), 'long-term' is defined as 'a year or more' and 'substantial' is defined as 'more than minor or trivial'. The definition includes sensory impairments such as those affecting sight or hearing, and long-term health conditions such as asthma, diabetes, epilepsy and cancer.

Schools are required to make 'reasonable adjustments' for students with disabilities under the Equality Act 2010, to alleviate any substantial disadvantage that a disabled student faces in comparison with non-disabled students. This can include, for example, the provision of an auxiliary aid or adjustments to premises.

### **3. School aspects**

All schools must also publish at least one specific and measurable equality objective. This or these must represent the equality challenges a school recognises a need to tackle. These objectives are set to cover each 4-year reporting cycle of the duty. The current cycle began on 1 April 2020 and objectives should last to April 2024. A school should report annually on progress towards meeting the objectives.

#### **Current good practice**

As part of transition procedures, we work with parents and feeder schools to clarify disability or health conditions. Where these are identified follow up meetings take place between parents/students and our SENDCo. Data is constantly reviewed with parents/carers of pupils on roll to ensure our records are accurate and amended promptly if required.

#### **Enrichment**

All pupils are given the opportunity to participate in a range of curricular and extracurricular activities where appropriate. Some aspects of extra-curricular activities may present particular challenges, for example:

- after-school clubs for pupils with physical impairments or use bus transport
- school trips for pupils with medical needs and/or low income

However, adjustments are made to allow participation where practicable.

#### **Physical Environment**

We moved into state-of-the-art facility in November 2020 with all of the benefits of a modern school building. It is a 3-storey building within a combined complex including a high school, public library and leisure centre.

The site and building are easily accessed by car, bus or walking. There is substantial car parking on site with a number of dedicated disabled bays close to the building entrance. Disabled and wheelchair access to the building is good with a number of ground floor access points and no stairs to navigate. All entry points have double doors for ease of access. Within the building disabled students have the use of the lift to access the first floor. We have dedicated accessible toilets on every floor.

The main reception area is secure. It benefits from access to an interview room for parents/staff to meet and an accessible toilet. It has a low reception desk, which is fully accessible to wheelchair users.

Room names are clearly displayed on doors and vision panels throughout the building.

The library area is located on the first floor. It is an open plan design with multiple entry/access points.

There is a personal evacuation plan in place for individuals requiring them in the event of a fire/or drill.

## **Curriculum**

Reasonable adjustments can be made to allow access to the curriculum for pupils with a disability. In addition, we will look at utilising other support mechanisms such as access to IT, adaptations to delivery and access assessment aids such as a reader/scribe. The level of adjustments required to support access to the curriculum will be discussed with parents, pupil and pastoral/SEND teams supporting the pupil.

## **Information**

The majority of information is directed home via email, therefore it may be necessary that different forms of communication are made available to enable all SEND pupils and their parents/carers access the information in a format appropriate to them. This will be discussed with all parties involved.

## **4. Action Plan**

This action plan sets out the aims of our accessibility plan in accordance with the Equality Act 2010 so that the protected characteristics of sex, race, disability, religion or belief and sexual orientation are not barriers to participation and achievement. We also acknowledge that whilst financial disadvantage is not a legally protected characteristic, it is an aspect that can place limitations on participation and achievement.
